Flow

Motivated by  
design's ability to  
positively affect the  
human condition,  
we create products  
that honor the  
*essential.*

---

We believe that design engages best when it gets out of the way. At its most elemental, design compels us to nurture a deeper connection to an object's fundamental qualities, giving voice to the materials from which it was made, the techniques by which it was crafted, and the designer by whom it was imagined.

Through this process of distillation, we aim to create a world free of excess and the unnecessary, bringing us closer to the things that provide meaning and fulfillment. It's when design honors the essential that we, in turn, honor the most essential of all: the human experience.

Philosophy	Designs that enhance the human experience		memofurniture.com

*Familiarity*  
that allows flow.

The background of the entire page is a photograph of the interior of Antelope Canyon. The walls are made of smooth, undulating sandstone that has been shaped by erosion over millions of years. The lighting is warm and golden, creating a series of horizontal bands of light and shadow that follow the curves of the rock. The overall effect is one of organic, flowing beauty.
