

Memo *Finishes*

Finishes are integral in our efforts to honor the essential. Guided by the insight and sensibilities of the designer Laura-Guido Clark, we've selected finishes that bring out the natural character of materials while also imparting rich tones, textures, and temperatures. Curated with these characteristics in mind, we offer a dynamic palette that includes colors from neutral to bold, temperatures from cool to warm, and textures from matte to gloss.

The Candy Collection finishes also include special stain selections formulated by Candy Designer and Colorist Carole Baijings. Carole's additions augment the Memo palette with bright floral tones, a signature approach within Carole's work

Wood/Veneer

Memo stains on solid wood and wood veneer are created using a two-step conversion varnish, formulated to withstand the wear and tear of commercial interiors. They are applied using a combination of hand rubbed and spray methods to allow the best expression and preservation of the visual characteristics and warmth of wood.

Laminate

High Pressure Laminates are created from durable composite coatings bonded using high heat and pressure. The resulting surface is highly resistant to scratches, stains, and moisture, making it ideal for commercial applications. Memo's Laminate offering is curated to work with other Memo finishes, and available in select colors and grain patterns.
