

## Memo *Finishes* - Ida Coffee Table

---

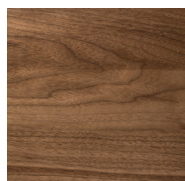

Finishes are integral in our efforts to honor the essential. Guided by the insight and sensibilities of the designer Laura-Guido Clark, we've selected finishes that bring out the natural character of materials while also imparting rich tones, textures, and temperatures. Curated with these characteristics in mind, we offer a dynamic palette that includes colors from neutral to bold, temperatures from cool to warm, and textures from matte to gloss.

### Our *Colors and Finishes*

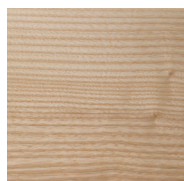

---

#### Wood/Veneer

Memo finishes on solid wood and wood veneer are created using a two-step conversion varnish, formulated to withstand the wear and tear of commercial interiors. They are applied using a combination of hand rubbed and spray methods to allow the best expression and preservation of the visual characteristics and warmth of wood.

WNP

#### Stone & Quartz

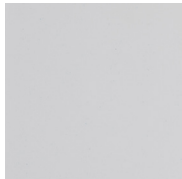

Stone is offered as durable natural alternates to solid surface. Smooth in texture and rich in depth and pattern, our stone is procured from premium resources and suppliers, and available in White Gray Marble. The characteristics of stone create a natural diversity of pattern and color, thus our materials will vary accordingly.

## Metal: Powder Coat

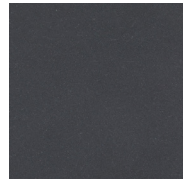

Powder coating offers a durable approach to finishing metal components that is ideal for commercial interiors and is environmentally considerate. Memo offers a selection of metallic neutrals and vivid hues in smooth and textured varieties, chosen to thoughtfully complement adjacent materials and finishes.
